## Washing machine for parts 3500

Cleaning with solvent or aqueous media

### EFFICIENT CLEANING

- ▶ Clean parts = less downtime

### EASY HANDLING

- ▶ Short and reliable washing cycles

### HIGH-QUALITY

- ▶ High-end components and sturdy construction

### TECHNICAL DATA

Combine washing and  
distilling

## Why a 3500?

### **EFFICIENT CLEANING:**

Oscillating spray bars with optimized nozzle arrangement and short spraying distance. Specifically designed for thorough cleaning of large amount of parts.

### **EASY HANDLING:**

Frontloader for easy (un)loading of the machine. Optionally (un)loading from one or two sides. Cleanliness around loading area due to drip pan. Easy access to filters on the side.

### **SAFE USE:**

Explosion protection according to ATEX, category 1 (with type examination) for zone 0 inside, category 2 for zone 1 outside the machine.

### **ROBUST DESIGN:**

High-quality components like pumps and ventilators. Long life cycle with regular maintenance.

## Inside the 3500

Oscillating spray bars with  
optimized nozzle  
alignment

Rollers for convenient  
loading and unloading
